

Vendors using electrical power from light poles on Minutemen Causeway.

Please observe the following regulations.

1. DO NOT plug any device in that draws more than 20 AMPS. If the GFI switch is thrown when you plug in your device than your device is drawing more than 20 AMPS of power. DO NOT reset plug and try again. DO NOT USE the plug.
2. DO NOT daisy link power strips. Using power strips and attaching them to each other than into the light pole outlet.
3. Be sure to have the proper extension cord when using the electrical outlets. Please use a 12 gauge extension cord.
4. If your extension cord or plug becomes HOT you are using the WRONG extension cord. Immediately disconnect from the outlet.
5. Please insure your power cords are safely and securely attached to ground when crossing a walkway.
6. If at all possible, do not have cords in walkways.

Electrical outlets will be tested prior and after each event. If electrical outlets are damaged or broken the event promoter will be charged for repair or replacement.

Vendors and Promoters using Minutemen Causeway

1. All trash must be picked up and disposed of properly after the event.
2. All tape used on the street and sidewalks must be removed immediately after the event.
3. NO tape is allowed on light poles, benches, bike racks, or trash cans.
